Color Matching Light Box

Light Source	D65 International Standard Artificial Daylight 6500K
	TL84 Fluorescent. Store light in Europe 4000K
	CWF Cool White Fluorescent.Store light in US 4150K
	F Incandescent. Home light 2700K
	UV Ultraviolet Lamp 365 nm
Hour Meter	LCD display, 0~999,999 hours
Dimension (WxDxH)	695×552×502mm
Weight (approx.)	19.5kg
Power	1ϕ AC 220V 50Hz (or specify)

برند GOTECH ساخت کمپانی تایوانی

مدل GT-100WA

The GT-100WA delivers precise illumination using standardized light sources to assess accurate product color. This lighting system allows operators to select a light source to compare the color of sample with color charts.

PRINCIPLE: The GT-100WA is designed specifically to provide precise illumination

using standardized light sources. It ensures objective results by minimizing environmental interference.

WIDE APPLICABILITY: Well-suited for various industries such as color management, printing, textile, coating, dyeing, material science, construction, automotive, medical device, and industrial manufacturing.

LIGHTING SIMULATION: Simulates different lighting conditions to precisely assess the color of sample.

COLOR CONSISTENCY EVALUATION: With its multiple light sources, the GT-100WA enables operators to conduct comprehensive evaluations of the color of samples under various lighting conditions.

STANDARDIZED TESTING: The GT-100WA is designed in accordance with international standards, ensuring comparability and reliability across different environments.

STANDARD CONFORMITY: Ensures that products meet industry standards and satisfy quality expectations in the market.
