MY-3 UV/W YOKE

Portable Yoke

Compliant with ASTM E709, ASTM E1444

Super Light

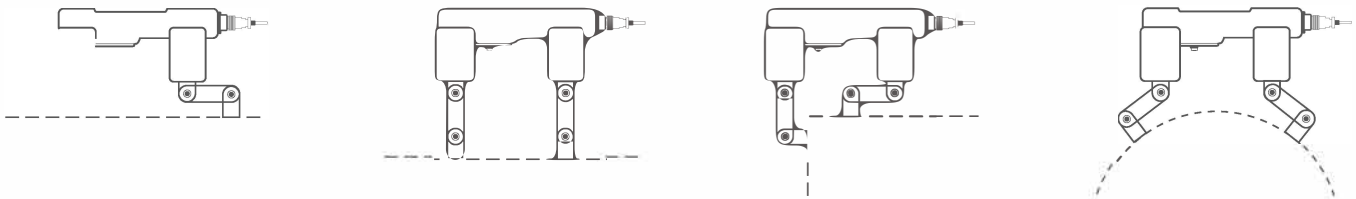

Portable

UV/White light

AC Type

Durable

Waterproof:IP54

Product Introduction

The MY-3 AC Yoke is a superlight and portable instrument designed for various inspection applications. The MY series features powerful AC magnetising, adjustable and changeable poles and one-handed operation. It is encased in a rugged housing making it extremely durable and waterproof (IP54) for all outdoor working environments.

Equipped with duo UV and white light capabilities, you can easily switch between inspection modes with a simple flick of a button.

White light

UV light

Its lightweight construction and intuitive one-handed operation reduce user fatigue, enabling you to perform inspections for extended periods without sacrificing precision or accuracy.

The components such as leg poles and cords are easily replaceable. No more downtime due to equipment issues—simply replace the necessary components on the spot and continue with your inspections seamlessly.

45° Pole (Optional)

Model		MY-3 UV/W
Power		AC 220V,50Hz
Working Current		AC 1.0A
Lifting Force		>10lb/4.5kg(44N)
Duty Cycle		50%,max on time is 30 seconds
Leg/Pole Span		35-210mm
Ingress Protection		IP54
EN/CE		CE/RoHS
Light(at working distance)		White Light and UV Light White Light ≥ 2000Lux UV Light ≥ 6000μw/cm ²
Length	Cord	3m,detachable
	Yoke	2.0kg
Weight	Yoke+Box	4.6kg
	Yoke	210(L)*150(W)*48(H)mm
Dimension	Packing Case	350(L)*270(W)*140(H)mm
	Kit	Yoke 1 pcs, Power Cable 1 pcs, Packing Case 1 pcs, Operation Manual 1 pcs, Certification 1 pcs
Optional		45° Pole
