Elcometer 506
Pull- Off Adhesion Gauge

Adhesion - Pull Off

Elcometer 506

STANDARDS:

ASTM D4541, ASTM D7234, AS/NZS 1580, 408.5, BS 1881-207, DIN 1048-2, EN 12636, EN 13144, EN 1542, EN 24624, ISO 16276-1, ISO 4624, JIS K 5600-5-7, NF T30-606, NF T30-062

Pull-Off Adhesion Tester

The Elcometer 506 Pull-Off Adhesion Testers allow the user to accurately measure the strength of the bond between the coating and the substrate.

Digital and analogue gauges available for both harsh and hazardous environments

Low height actuator allows access in restricted areas. Safety harness clip prevents accidental damage of surrounding areas during test on vertical surfaces

Actuator skirts for a range of substrate thicknesses and bond strengths, on flat or curved surfaces

Elcometer 506

Pull-Off Adhesion Tester

Measurement range up to 50 MPa (7250 psi) with an accuracy of ±1% of full scale

Powerful

- Suitable for use on metal, wood, concrete and other substrates
- Rugged & lightweight ideal for frequent testing
- Smooth load application up to 50 MPa (7250 psi)

Flexible

- · Easy to use hand-held design
- · Ideal for laboratory and field use
- 14.2, 20 and 50 mm (0.56, 0.76 & 1.96") diameter reusable dollies
- Measures on small, curved and flat surfaces

Accurate

 Measurement range up to 50 MPa (7250 psi) with an accuracy of ±1% of full scale

Durable

- · Sealed, heavy duty and impact resistant
- Dust and waterproof equivalent to IP65
- · Suitable for use in harsh environments

Pull-Off Adhesion Tester

All gauges come with a 1 year warranty as standard, the Elcometer 506 is extendable within 60 days from date of purchase, free of charge, to 2 years via www.elcometer.com

Test Certificate supplied as standard.
 Calibration Certificate supplied as standard.

 $^{^\}dagger$ 50mm (2") dollies are supplied in packs of 4. $^\sharp$ When using the analogue gauge with 14.2mm (0.56") dollies, multiply the 20mm dolly scale reading by 2.

Elcometer AVU

Adhesion Verification Unit (AVU)

The Elcometer AVU has been designed to provide users with the means to confirm the accuracy of their pull-off adhesion gauge.

Due to its robust design the Elcometer AVU is suitable for use on site or in the laboratory and allows users to verify or self-certify their pull-off adhesion gauges.

A range of dolly adaptors are available for testing the Elcometer 106 and Elcometer 506 adhesion gauges. Adaptors are also available for testing other manufacturers' gauges.

Attach the appropriate dolly adaptor to the AVU, connect your adhesion gauge, apply load and compare the adhesion tester value to the reading on the AVU Display.

Features include:

- · Max hold and live reading display
- MPa / psi switchable units
- Backlit display
- Automatic switch off

The Elcometer AVU is supplied with either a test certificate or full calibration certificate, suitable for self-certification.
