

## UNI-T UT105

**UNI-T UT105** is an automotive digital multimeter for DC current, AC/DC voltage, resistance, tach and dwell measurements, continuity check and diode test.

### Functions:

DC current

AC/DC voltage

resistance

continuity test (with buzzer)

diode test

tach (rotation speed)

dwell

Manual ranging

Fused 10A range

Data Hold function

Low battery indication

پتروفرهان گستر جنوب

DIGINDT.IR  
FGJ-NDT.IR

Type	digital automotive
Measured Values	DC voltage AC voltage DC resistance crankshaft rotation frequency

	crankshaft speed
Additional Functions	acoustic continuity test data hold indication of proper connection of test leads diode test
Range Selection	manual range
Digit Capacity	1999
DC Voltage	up to 1000 V
AC Voltage	up to 750 V
Resistance	up to 20 MOhm
DC	up to 10 A
AC	does not measure the AC
Capacitance	does not measure the capacitance
Frequency	does not measure the frequency
