

MODEL: WT8801

Combustible Gas Monitor Instruction Manual

10. Specifications

Gas detection	EX
Measuring range	0~100%LEL
Resolution	1
Accuracy	≤ ±5%FS
Response time (90%)	Less than 30 seconds
Indication mode	LCD displays real-time data and system state, LED, sound, vibration indication alarm
Storage Conditions	Temperature: -10~55°C; Humidity: < 85%RH
Operation Conditions	Temperature: - 20~50°C; Humidity: < 95%RH non-condensing
Working voltage	DC 3.7V (Lithium battery capacity 1800mAh)
Battery Model	LP103450-1800mAh
Charging time	6~8h
Standby time	More than 8h on end (slightly change with working state)
Dimensions	71*153*49mm
Weight	215.4g(with battery and back button)
